GETS SIX MONTHS

The Great Labor Agitator Takes Judicial Medicine.

COMPANIONS FARE BETTER

They Receive Three Months in the County Jail, While Sentence Is Suspended in the Case of Mr. McVenn. Debs Is Cast Down.

By the United Press. Chicago, Dec. 14-Judge Woods today sentenced Eugene V. Debs, the leader of the American Railway union strike, to six months in the county jail, as a punishment for violating the injunction issued by himself and Judge Grosscup July 2 last. To the rest of the men. with the exception of McVean, he gave three months. In the case of McVean sentence is suspended. Sentence is not cumulative, covering the cases of the government and the Santa Fe railroad against the men. The same sentence is imposed in each case, but both sentences begin and end at the same time, begin-

ning Dec. 24. The defendants are: E. V. Debs, president; G. W. Howard, vice president: Silverton Kelliher, secretary; L. W. Rogers, M. J. Elliott, James Hogan, William Burns, J. D. McVean, Leroy M. Goodwin. The sentence is generally considered a light one. The case will be appealed.

Debs' utterances not to commit viollence were doubted by the court. He did not believe they were sincere. "With all that has been said about the American Railway union keeping guard over property and being the first to arrest offenders, not one has been arrested, continued the court. "By Mr. Debs' admission, he was out among the men urging them to join the strike after this injunction was issued. Howard did the same. They both had committed no violence, but advised that Pullman cars be stopped at all hazards. All the outrages committed at Blue Island after the speeches of Debs and Howard were directly attributable to these people and they are responsible for them."

The court then reviewed the mass of telegrams in which Debs ordered men out and declared these were utterly at variance with the statement made in Debs' answer that he took no part in continuing the strike. After thus concluding that there was no doubt that the men as individuals were guilty, Judge Woods said:

"But the point under the Sherman law is whether these men were in conspiracy. If they were, I believe there is no way by which they can escape the moral and legal responsibility for their

No Feature in Doubt.

He then gave it as his opinion that they were and that therefore the men allied with them were also guilty. The evidence left no feature of the case in doubt. Then he said: "The court therefore finds the defendants guilty as charged in the indictments in both cases and will fix the punishment the same in both cases, but will not make it cumulative. I have not yet written down any punishment for these men. I know only two of them by sight. As this is a criminal case. I desire to give each one of the defendants a chance to speak to me and say what he will."

Deep silence followed this declaration of the court. Then a mighty hum arose and soon the defendants were on their feet and engaged in conversation with counsel. Then Attorney Darrow spoke for the nine defendants as follows: "These defendants have nothing to say, They believe that they did right in ordering and continuing this strike. Two of these defendants-Mr. McVean and Mr. Elliott-took no active part in this strike, although they were both directors in the Railway union. Their names were not mentioned in the evi-

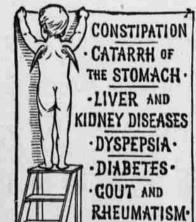

All of the defendants present then stood up so the court could see them. They did not appear to be agitated, and several smiled from time to time.

Light Sentence Imposed. The court passed sentence as follows: "I think I will suspend any sentence with regard to Mr. McVean. I am of opinion that Mr. Elliot was actively engaged in this strike. Punishment should not be vindictive. Neither should it be trivial. The object of punishment for contempt of court is to prevent future contempt. My conclusion is that the injunction was right. Mr. Debs is more responsible than anybody else. He is a man of marked ability and of strong character and the leader of these men. It was in his power by merely lifting him and the rest of the defendants. I will give Mr. Debs six months in the county fail and the rest three months.

This sentence to take effect ten days In speaking of the decision, Attorney Parrow, who represented the defendants, said:

"The decision is bad law, but the sentence is remarkably lenient."

Vice-President Howard said he was prepared to expect anything. Presi-

HOWGATE TO BE TRIED.

Application for Appeal on Demurrer Is Denied by Court. By the United Press. Washington, Dec. 14.-The court of

appeals today denied the application for appeal on demurrer of Captain Howgate, the ex-United States service officer indicted for embezzling a large sum of money fifteen years ago.

As the indictments for forgery, brought against Howgate at the same time as those for embezzlement, were recently thrown out by Judge Mc-Comas as being defective, the grand jury today returned a new forgery indictment, which is considered by the district attorney to be stronger in substance than the former ones. Howgate's trial will probably begin about Dec. 20.

A paragraph under a Pittsburg date says the impression there is that the Vanderbilts are preparing to complete the Beach Creek railway to Pittsburg. That impression is not confirmed by inquiries made in New York. The Beach Creek railway is controlled by the West Shore system, and is of very great importance to it, not only as a feeder. but as giving it an independent control of coal mines. A reliable estimate of this year's pig iron production in the United States shows that the output is about 500,000 tons less than that of last year. This year's prduction will be about 6,600,000 tons. The increase in production which began in July last is still manifest. The production Dec. 1 was at the rate of 178,325 tons a week, or 9,300,000 tons a year. It is predicted by the American Manufacturer in its Issue of this week that the production next year will be one of the largest in the history of the iron trade in the United States.

TO OUR PATRONS:

Washburn-Crosby Co. wish to assure their many pat-rons that they will this year hold to their usual custom of milling STRICTLY OLD WHEAT until the new crop is fully cured. New wheat is now upon the market, and owing to the excessively dry weather many millers are of the opinion that it is already cured, and in proper condition for milling.
